¹ Typical evening speeds are based on the download speed test results of existing customers between 7pm and 11pm and are subject to change. Actual speeds may be lower due to many factors including your network configuration, the location and type of content, the number of users simultaneously accessing the network, and the performance of third-party interconnection infrastructure that Exetel does not monitor or maintain. WiFi connected devices may have slower speeds than Ethernet connected devices.

Information About The Service

Exetel's Other Fibre Broadband Service delivers high-speed broadband internet over one of our partner networks' Fibre Optic Infrastructure to the Network Boundary Point at your premises. The network partner for this service will depend on your address. You can check the network that services your address on the Exetel website or by calling our Sales Team on **13 39 38**. Fibre services include Fibre-to-the- premises (FTTP), Fibre-to-the-Node (FTTN), Fibre-to-the-Riser (FTTR) and Hybrid Fibre Coax (HFC) and Fibre-to-the-basement (FTTB) connections.

Mandatory component of the service

There are no mandatory components of the Exetel Fibre Broadband service. For FTTB, FTTR and FTTN connections, an in-place copper telephone line will be required from the MDF in your building basement.

Exetel Fibre Broadband services are supplied as pure stand-alone broadband service including a free VoIP Direct In Dial Number (DID) so you can either port your current home phone number to Exetel (if you have one) or we can assign you a new one. This VoIP service can be used to make and receive phone calls over your Exetel Fibre Broadband service. Call charges apply. If you cancel your Exetel Fibre Broadband service, access to your Home Phone (VoIP) service will be cancelled also.

Minimum Contract Terms

Broadband service: No Lock-in

Optional Unlimited Home Phone: 1 month

Limitations/Qualifications for the service

Exetel Fibre Broadband may not be available in all areas or premises. There may be technical or commercial reasons that affect our ability to connect a service at your address. Please visit the Exetel website to check your service availability or contact our Residential Sales Team on **13 39 38**. Customer Service Guarantee does not apply to the Home Phone service.

About Speeds

The speed tier for your service is the theoretical maximum speed of the access line connecting your premises to our partner network. The actual speeds you experience, particularly during busy periods, may be limited by demand in other parts of the network and will typically be much slower. For more information, please visit our website.
